

BOREK CUSTOMER NEWS

Issue 15, August 2009

Even if you are not a bicycle enthusiast, you MIGHT have heard that [Lance Armstrong](#) decided to race again this year in the Tour de' France and while he personally came in 3rd place, his TEAM came in 1st and his teammate, [Alberto Contador](#) won the event!

Team Astana wins!

3 team riders finishing in the top 6 spots of the Tour De France, is a strong team!

Of course any team may have their challenges and may even need to regroup from time to time. But one key ingredient to success it to share your own experiences and [learn from one another](#), whether it is from their mistakes, or [their ideas and inventions!](#)

So, we've asked a few of our Portland area clients to share their 'significant discoveries' and 'big plans' for the summer - in the hopes of enlightening and inspiring some of you!

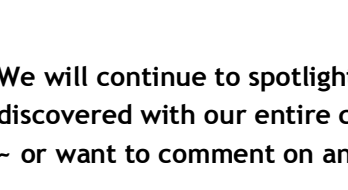

Teams

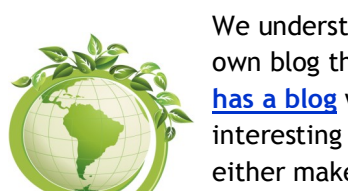

[Northwest Energy Efficiency Alliance](#), a non-profit entity accelerating the sustained market adoption of energy-efficient products, implemented [FRx Forecaster](#) last year to help with their budgeting. This year they're expanding Forecaster & [saving more time](#) in distribution, re-entry, and error checking by giving access directly to forecaster to more departments/personnel.

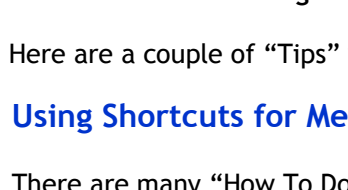

[Marketron](#), specializing in radio and television software products, has also expanded their FRx software reach by utilizing [FRx Webport](#) which many customers may not realize they already own. This now provides users access to financial reports [via an intranet site](#) to be able to quickly and easily drilldown and analyze the results!

[Pacific Courier Services](#), providing same-day courier services throughout the Northwest, wanted to track their collection notes and efforts without purchasing another Dynamics GP Module. They used [GP's Extender module](#) to add specialized note fields and can now print those notes and comments whenever necessary. Extender can be used to add fields & windows to existing GP modules!

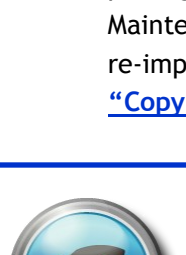

[Port of St. Helens](#) creates jobs, improves financial return, and diversifies regional economy for the Columbia River's Deep Water Port. They recently switched to using Borek as their Microsoft Dynamics GP partner and have used our services for [FRx report construction](#), a [server upgrade](#), and developing [SRS reports](#) for other databases on their financial server.

[Volunteers of America Oregon](#) is a social service provider that is expanding services to meet the growing & changing needs of the community. They recently began using Borek's services and training for Microsoft Dynamics GP. They are now budgeting for additional training in Human Resources, Smartlist usage, and additional general training to fully take advantage of the modules they already own. We have already provided some of the ["Borek Customer Tips & Tricks"](#) we covered in our customer webinars. Their favorite, page 9 - using Smartlist for searches.

We will continue to spotlight our customers and share some of the recent tips they've discovered with our entire customer base. If you want to share a trick you've learned - or want to comment on any of the ones above - just [click here!](#)

Borek is blogging, get a subscription to the goods!

We understand that it seems like everyone and their mother has their own blog these days, but [Abra Gilman, a Borek Senior Consultant](#), has a blog which she shares "Key Finds" for Dynamics GP, plus other interesting shortcuts for items like Outlook, Excel and Word. You can either make a point of checking the link every so often, or subscribe to an RSS subscription, which will let you know when a new post has been made.

This is a good way to get a SHORT message that could help you save TIME with your daily processing! Instead of searching our website for Customer Tips, or sifting through Customersource, [just subscribe to the blog](#) and get notified when a new entry is posted, - or know to come visit when you've got time! The next 5 customers who subscribe to Abra's blog will get a Borek mug and notepad!

Here are a couple of "Tips" we felt were worthwhile to post on Abra's customer blog:

Using Shortcuts for Menu options in GP 9/10

There are many "How To Documents" available out on [YOUR](#) Microsoft Dynamics GP Customer website, Customersource. One of these documents, recently updated, is ["Using Keyboard Shortcuts in Dynamics GP"](#). Read the highlight below, or go to the full version of the article by clicking the document name above.

To access a menu and window using shortcut keys, press ALT & the underlined letter of the menu. Then to select a command, press ALT and the underlined letter of the command. I.E. To open the Account Detailed Inquiry Window for General Ledger you could go through the menus selecting Inquiry > Financial > Detail Inquiry OR you can just hit "ALT I, F, D".

Copy Document Layouts using Notepad, not Report Writer

Did you know you can duplicate a report layout in Report Writer by making a package of the original report through Tools > Customize > Customization Maintenance; modifying the name in lines 1 and 2 through Notepad; and then re-importing the package as a new report layout? Go to our full [BLOG Entry "Copy Invoice/Report Layouts in Notepad"](#) to see more details!

Microsoft GP: Latest Service Packs/Revisions

(click on links to go to individual product download pages)
Please contact us for notes prior to installing.

[Microsoft Dynamics GP 10.0](#) Srvc Pack 3 and patches to version 10.00.1328

[Forecaster 7.0](#) Srvc Pack 3 - 7.0.1613.13 (April 22, 2009)

MICROSOFT CUSTOMER PROMOTIONS

Here are the current existing customer promotions available from Microsoft. [Request product and promotion information from us](#) if you are interested in a demo, pricing or more.

☛ [GP Extender Price Change](#): Currently GP Extender is \$825 for GP Standard and \$1750 for Profession or BRL customers. However, this price will be increased to \$2450 in September 2009. So, consider this purchase now to take advantage of the ability to add windows, lookups, notes, and functionality to your system.

☛ [Buy 2 modules, Get 1 @ 50% off](#) Purchase Additional GP Modules and get 50% off the lowest cost module. Good through December 2009.

☛ [Transition to Business Ready Licensing](#) from GP Professional or GP Standard. If you purchased your system prior to 2007, you may be able to obtain numerous additional modules for a fraction of their list price if you move to "BRL"!

We are not put on this Earth to see through each other, but to see each other through. ~ Anonymous
